July 11th – Algona, WA – Vision X Lighting announces the availability of a bolt on LED Light Bar Mount for all current model years of the Ford Raptor. This kit is designed to give you incredible light output with the 20" Xmitter Prime Xtreme, while maintaining the desired factory appearance of the Raptor. The 20" Xmitter Prime Xtreme (XIL-PX3610) is the highest light output LED light bar model on the market. With an XIL-PX3610 you can reach an amazing 1476' of usable light from the light bar alone! This mount will fit a single light bar ranging from 12" to 21" or two 6" light bars. A factory integration wiring harness is included to wire the light bar to the Raptor's factory auxiliary switches.

The bracket itself is fabricated from 1/8" thick hot rolled carbon steel and finished with a two stage black powder coat. Every light bar model is made with an extruded 6061 aluminum housing and a poly carbonate lens cover for maximum durability.

Having issues with dust during your offroad excursions? This bracket will also fit the 20" Xmitter Prime Amber LED Light bar (XIL-P3610A) to illuminate through the dust.

If you're interested in the Ford Raptor Bumper LED Light Bar you may also be interested in the Optimus Fog Light Kit. The Optimus Fog Light Kit, paired with the Bumper LED Light Bar give you the highest light output for any Ford Raptor on the road while still maintaining factory appearance.

Summary of Features:

- Bracket is made of 1/8" Hot Rolled Carbon Steel
- 2-Stage Black Powder Coat #20 Finish
- Maintain Factory Appearance
- Designed to Fit XIL-PX3610
