

VEHICLE ID BOARD SERIES

DESCRIPTION

The Vision X Identification Number Board allows personnel to quickly identify vehicles in any weather condition. Available in 2-Digit or 3-Digit configurations, these LED ID Boards can be changed as often as needed, and are engineered to run 24/7. Installing the Vision X ID Number Board means vehicles won't require numbers to be painted and can be quickly changed, reducing downtime during crucial timeframes.

Features and Benefits:

- Numerical LEDs Controlled Via Magnetic Sensor
- 195 LEDs Per Number
- Red, Green, Blue, Amber LEDs Available
- Auto Dim / Bright for Day and Night time Operation

SPECIFICATIONS

MECHANICAL

Fixture Weight w/ Brackets:	21 lbs (9.53kg)
Shipping Weight:	24 lbs (10.89kg)
Mounting:	Modular Mounting Brackets

TECHNICAL

LED:	5050 (0.2W)
Color:	Red, Green, Blue, Amber
Lumens:	-
Wattage:	78W
Amp Draw:	6.5A @ 12V
Operating Voltage:	12-36V DC
Operating Temperature:	-40°C – 80°C
Lifespan:	50,000 hrs
Connector:	3 Pin Deutsch

CONSTRUCTION

Housing:	Die-Cast 6061 Aluminum
Housing Color:	Black
Lens:	Polycarbonate

RATINGS

EMC Emission:	CISPR 25 Class 1
Ingress Protection:	IP-68/ IP69K
Vibration Rating:	21.2 Grms
Warranty:	3 Years

PART #:	# of DIGITS	COLOR
MIL-ID02R	2	Red
MIL-ID02G	2	Green
MIL-ID02B	2	Blue
MIL-ID02A	2	Amber
