

Vision X Lighting Unleashes the Brightest 6.7" Light Cannon LED on the Planet

Over 2500' of Usable Light!

March 13, 2014 - Auburn, WA – Shining almost a half-mile of usable light, Vision X Lighting raises the bar with the all new 6.7" Light Cannon LED light. From a single 50 watt Luminous LED, the 6.7" Light Cannon LED fires 2520' of Usable Light (measured at 1 Lux), with more versatility than any single LED automotive light! The 10 degree spot pattern Light Cannon is also like having 12 lights in 1! It enables optional Snap on polycarbonate cover filters to quickly change the beam pattern from Spot to Euro or Flood, while the colored filters (Clear, Blue, Yellow, or Red) can improve visibility in various conditions. The universal single bolt mounting accompanied by an available wiring harness, provides a quick, traditional installation on a multitude of applications. The patented 6.7" Light Cannon is also backed by the Vision X Extended Warranty.

"A year ago, the 4.5" Light Cannon LED took LED lighting to new heights, the larger 6.7" Light Cannon LED shines 2.5 times farther! We have trucks in Alaska traveling thousands of miles at night in freezing temperatures, racers competing at very high speeds with relentless pounding and abuse, and farming & construction workers traveling on remote roads with animals crossing their paths. The 6.7" Light Cannon will provide unprecedented lighting distance, durability and easy access to change beam patterns like no one has ever seen. Not only do we feel competitors on the trail will gain advantage at night, but those traveling on the remote roads will have more light to see and react to any dangers." - Nick Irwin, Vice President - Vision X Lighting

MORE DISTANCE! MORE VERSATILE!

Vision X
Automotive Lighting Solutions

Exclusive Technology:

The new 170 millimeter (6.7") artillery from Vision X marks another groundbreaking move by the progressive

light manufacture, as they have formed an exclusive alliance with Luminus, the world's leading big chip LED manufacture. The 50 watt Luminus Ultra-Premium LED combined with Vision X Lighting's Prime Drive, Integrated Thermal Management, and proprietary Iris Reflector Technology produce amazing lighting distance and reliability, with a smooth light pattern.

Lightweight and Tough:

This leading technology is captured by a lightweight, high strength Hybrid Aluminum/Polycarbonate housing (only 5.50 lbs.), providing the optimum combination for enduring the hottest, coldest, wettest (IP-68 waterproof rating) and most rugged conditions.

Protection and Improved Visibility:

Up to 12 different Light Cannon Cover Filters are available. Each polycarbonate translucent cover also protects the Light Cannon as well as improving vision in dust, fog or snow. Each is finished with a glow in the dark printed "X" for a cool look at night when the Light Cannons are off.

Unbelievable Value:

The Light Cannon LED light comes standard with Vision X Lighting's Extended Warranty and is exceptionally priced at \$429 for a single 6.7" light, or available in the Light Cannon Kit with two 6.7" Light Cannons and Wiring Harness for a crowd pleasing \$849.

Key Features:

- 2520' of Usable Light
- 50 watt Luminus Single LED for Smoothest Pattern
- 6.7" Round with 10° Narrow Beam
- 12 Optional Snap on Driving Filters - Spot, Euro, Flood and Clear, Blue, Amber, Red
- Optional Black Out filter with Glow In The Dark "X"
- Universal Single Bolt Mounting
- Ultra Lightweight Hybrid Construction, only 5.50 lbs
- Advanced Heat Sink
- Proprietary IRIS Reflector Technology
- Prime Drive for Enhanced Reliability and Output
- Integrated Electronic Thermal Management
- Polycarbonate Lens
- IP-68 Waterproof
- Weatherproof Deutsch Connector
- Patented

6.7" Light Cannon LED Light (50 watt, 10° Beam)

Part# 9888538 (CTL-CPZ610) - 1 Light & Pigtail \$429.00

Part# 9888545 (CTL-CPZ610KIT) - 2 Lights & Wiring Harness \$849.00

Cover Filters - \$30

Technical Data 6.7" Light Cannon LED

- Warranty: Extended
- Raw Lumens: 3,200
- Wattage: 50
- Weight: 5.51 lbs / 2.5 kg

- Dimensions: 6.70" x 6.30" x 8.82" / 170mm x 91.4mm x 224mm
- Input Voltage: 11-65V
- Amp Draw: 4.17A
- IP Rating: IP-68
- Vibration Rating: 15.6Grms
- Operating Temp: -40 ~ +85
