

**Wide Flood and Elliptical Beam Pattern Poly-Carbonate Covers**  
*20 Lights in 1 while adding shatterproof protection for Optimus Round and Cannon*

**June 27, 2014 – Auburn, WA** – Now even more options exist for transforming your Vision X Lights to match every application. With the new elliptical and wide flood covers for the Cannon and Optimus Round Series, it has never been easier to transform one light for any purpose. Designed for durability and protection, the new covers are made of shatterproof polycarbonate and are fully gasketed to protect from water and dust. The new covers are available in clear, blue, red and yellow.

The elliptical covers provide a horizontally cut beam designed for roadway use, cutting down the periphery illumination to keep the light out of the eyes of oncoming traffic. This cover maintains stellar distance while ensuring focused light in the areas needed.

The new wide flood covers provide the ultimate spread, evenly illuminating the area directly in front of the light. For work flood lighting or trail applications where a broad light spread is needed, the wide flood provides the solution.

Vision X also has euro, trail flood, and clear covers available in addition to the new elliptical and wide flood configurations. That's 20 different cover combinations for a single light! Whether on the trail or the road, the work site or the dunes, Vision X polycarbonate covers make switching applications a snap with the Cannon and Optimus Light Series.

**About Vision X Lighting:**

*Vision X Lighting, located in Seattle, Washington, was established in 1997 with the mission to revolutionize the lighting industry. Since that time, Vision X has created one of the largest premium lighting offerings in the world with hundreds of products and applications. Now, the military, border patrol, and even NASA have trusted Vision X on vehicles that cannot work with second best. Vision's leadership in lighting has landed them on the Inc. 500/5000 list for two consecutive years, ranking 563rd in 2013 with a 799% growth rate in 3 years, 10th overall in manufacturing, and Washington's fastest-growing manufacturing company. Vision X Lighting's commitment to its customers, dealers and product is unsurpassed. [www.visionxusa.com](http://www.visionxusa.com)*
