April 25th - Algona, WA - The first-ever 4.5" Light Cannon LED light by Vision X Lighting, takes automotive lighting technology to extraordinary lengths by shining over 1000 feet of usable light from a single 25 watt LED. The intense 10 degree spot pattern Light Cannon is also like having 12 lights in 1! It enables optional Snap on polycarbonate cover filters to quickly change the beam pattern from Spot to Euro or Flood, while the colored filters (Clear, Blue, Amber, or Red) can improve visibility in various conditions. The universal single bolt mounting accompanied by an available wiring harness, provides a quick, traditional installation on a multitude of applications.

Exclusive Technology:

The new 120 millimeter (4.5") artillery from Vision X marks another groundbreaking move by the progressive light manufacture, as they have formed an exclusive alliance with Luminus, the world's leading big chip LED manufacture. The 25 watt Luminus Ultra-Premium LED combined with Vision X's Prime Drive, Integrated Thermal Management, and proprietary Iris Reflector Technology produce amazing lighting distance and reliability, with a smooth light pattern.

Lightweight and Tough:

This leading technology is captured by a lightweight, high strength Hybrid Aluminum/Polycarbonate housing (only 2lbs.), providing the optimum combination for enduring the hottest, coldest, wettest (IP-68 waterproof rating) and most rugged conditions.

Protection and Improved Visibility:

Up to 13 different Light Cannon Cover Filters are available. Each polycarbonate translucent cover also protects the Light Cannon as well as improving vision in dust, fog or snow. Each is finished with a glow in the dark printed "X" for a cool look at night when the Light Cannons are off.

Unbelievable Value:

The Light Cannon LED light comes standard with Vision X's Extended Warranty and is exceptionally priced at \$229 for a single 4.5" light, or available in the Light Cannon Kit with two 4.5" Light Cannons and Wiring Harness for a crowd pleasing \$449.

Summary of Features:

- 1000' of Usable Light
- 25 watt Luminus Single LED for Smoothest Pattern
- 4.5" Round with 10° Narrow Beam, Optional Snap on Filters
- 12 Optional Snap on Driving Filters - Spot, Euro, Flood and Clear, Blue, Amber, Red
- Optional Black Out filter with Glow In The Dark "X"
- Universal Single Bolt Mounting
- Ultra Lightweight 2 lb Hybrid Construction
- Proprietary IRIS Reflector Technology
- Prime Drive for Enhanced Reliability and Output
- Integrated Electronic Thermal Management
- Polycarbonate Lens
- IP-68 Waterproof
- Weatherproof Deutsch Connector

About Vision X Lighting:

Vision X Lighting, located in Seattle, Washington, was established in 1997 with the mission to revolutionize the lighting industry. Since that time, Vision X Lighting has created one of the largest premium lighting offerings in the world with hundreds of products and applications. The military, border patrol, and even NASA have trusted Vision X Lighting on vehicles that cannot work with second best. Vision X Lighting has lead the lighting industry growing 759% in the past 3 years which placed them on the 2012 INC 5000 list at 503, 10th overall in manufacturing and 10th in the Seattle Washington area. Vision X Lighting's commitment to its customers, dealers and product is unsurpassed. www.visionxusa.com

About Luminus Devices:

Luminus Devices is a leading developer and manufacturer of LED technologies and solutions for the multi-billion dollar global illumination market. Luminus' high efficacy and high brightness LEDs are used by many of the world's biggest companies for general lighting, projection display, entertainment, ultraviolet curing, life sciences, medical, portable, transportation and digital signage lighting applications. Luminus has more than 151 patents/patents pending worldwide, and its revolutionary Big Chip LED™ technology enables new markets for solid-state lighting. Luminus has been certified for ISO 9001:2008, ISO 14001:2004/OHSAS 18001:2007 and its testing lab is accredited for ISO/IEC 17025:2005 for testing LEDs to the LM-80 standard. Headquarters and manufacturing facilities are located near Boston, Massachusetts, U.S.A. For more information, visit www.luminus.com.
