

# LED LIGHT CANNON COMBO COVER

## SPOT & EURO LIGHT CANNON COMBO COVER

Combine Superior Distance With Peripheral

PCV-6500YCB Shown

### Spot/Euro Combo Covers

The Combo Cover for the LED Light Cannon series was designed to blend the best qualities of a Spot beam and a Euro beam into one effective solution. The Combo Cover retains 80% of the distance that a Cannon would produce without a cover, while dramatically improving the peripheral zones on the side of the vehicle.

### Features

- Retains 80% Of Standard Cannon Distance While Greatly Improving Peripheral Lighting
- Available In Clear, Blue, Red, Yellow Colors
- Protects Fixture From Dust & Debris
- 8.7", 6.7" and 4.5" Covers Available
- Unbreakable PolyCarbonate

### Peripheral Lighting Zones

A key benefit of the Combo Cover is the ability to retain the crucial long-distance lighting of the LED Light Cannon while amply lighting the peripheral zones on the side of the vehicle as shown below.

### Available Sizes

The Combo Cover is currently available for the 6.7" LED Light Cannon, with other sizes coming soon.

### Available In Four Colors

With four colors available for different weather conditions, the Combo Cover is the perfect accessory to get the most out of your LED Light Cannon.

#### Clear

Protects the LED Light Cannon from dust and debris while maintaining the normal LED Color.

#### Blue

Increases lighting distance when used in snow conditions by reflecting the blue light off the snow.

#### Yellow

Battles heavy fog and dust conditions by reducing the amount of blue light emitted from the Light Cannon.

#### Red

Reduces light temperature and glare in order to enhance penetration in dust and air particulate.
