

RECHARGEABLE LED INSPECTION LIGHT

NEW | PRODUCT

SALES SHEET | RECHARGEABLE LED INSPECTION LIGHT

VERSATILE RECHARGEABLE AND DURABLE

The Vision X Rechargeable LED Inspection Light is the ultimate workshop tool to put light where you need it most. The 36 powerful LEDs produce 2 brightness levels with 16 hours runtime at 500 effective lumens and 8 hours runtime at 1000 effective lumens while the top torch spotlight produces 100 effective lumens. With fast USB-C charging via built-in charging port and compact docking station, charging is made even easier. This ensures the light is always charged ready for use. Featuring a sealed integrated switch, two heavy-duty magnets and a metal swivel hook for hands free operation.

3 OUTPUT MODES

Easily switch between high, low, and torch output modes depending on your lighting needs and battery life.

UP TO 16 HOUR BATTERY LIFE

Never worry about your light turning off during those long projects where lighting is critical to get the job done. Features 2hr auto-turn off that you can also disable if needed.

VERSATILE MOUNTING

Hang your light using the concealed swivel hook or stick it to any metal surface using the attached heavy duty magnets for hands free lighting on demand.

Rechargeable

With USB-C charging via a compact docking station or through the light body, charging is made even easier. Ensuring the light is always charged ready for use.

Dual Output Light Modes

36 powerful L.E.D.s produce 2 brightness levels. With 16 hours runtime at 500 lumens and 8 hours runtime at 1000 lumens.

Durable

Durable and shock resistant body tested to IK07 impact resistant levels with a virtually unbreakable polycarbonate lens and weatherproof rubber housing (IP65) chemically tested to resist oils and fuels.

BATTERY INDICATOR
LED glows red when charging and the battery gauge glows green to show charge level

TOP TORCH
100 Lumen top torch for precise lighting in small spaces.

LED INSPECTION LIGHT | SPECIFICATIONS AND ORDERING INFORMATION

Each LED Inspection light will include the docking station, charging cable, and operation instructions.
