

Tremor
LED Work Lights

Thank you for choosing VISIONX
We know you would rather be driving your vehicle than wrenching on it, so we go the extra mile to make sure our instructions are clear and as easy to understand as possible. If you have any questions, comments, or suggestions don't hesitate to give our gear experts a call at +1 253 338 8716 or visit WWW.VISIONXOFFROAD.COM

Please Read Before Installing
VISIONX products should always be installed by a qualified technician. If you are unsure of your ability to properly install a product, please have the product installed by your local dealer. VISIONX takes no responsibility for damages caused by improper installation. **Caution:** When installing electronics it is extremely important to pay close attention to how wires are routed.

Installation Tips
We strongly recommend using medium strength liquid thread locker on all screws, nuts, and bolts. It is also important to ensure that all hardware is tightened to the proper torque specifications as listed in your owner's manual. For included accessory hardware please refer to the default torque specifications provided below. Inspect all hardware after the first 30 miles to ensure proper torque specifications are maintained.

Bolt Size	in-lbs	ft-lbs	Nm
M3	10.0 in-lbs	-	1.0 Nm
M4	23.0 in-lbs	-	2.5 Nm
M5	44.5 in-lbs	3.5 ft-lbs	5.0 Nm
M6	78.0 in-lbs	6.5 ft-lbs	9.0 Nm
M8	-	13.5 ft-lbs	18.0 Nm
M10	-	30.0 ft-lbs	41.0 Nm
M12	-	52.0 ft-lbs	71.0 Nm

Hardware Sizing Guide
Not sure what size bolt you have? Use this ruler to measure screws, bolts, spacers, etc. Remember, the length of a screw or bolt is measured from the start of the "mounting surface" to the end of the screw, so only include the screw head when measuring countersunk screws.

VISION X Tremor LED Work Lights

Tremor 3 LED

Tremor 5 LED

Tremor 8 LED

Whats In the Box

- (a) Tremor LED Work Light.....Qty 1

(b) M10 x 25mm Hex Head Bolt.....Qty 1

(c) M10 Washer.....Qty 1
- (d) M10 Nylock Nut.....Qty 1

(e) 2 Pin Wiring Pigtail.....Qty 1

1. Mounting The Lights

1.1 - Universal Mounting

Step One: Align the M10 bolt with the hole on the mounting bracket and secure it in place from below with the included washer and M10 Nut.

1.2 - Vehicle specific Mounting

Note: Tremor Light pods can be mounted in vehicle specific applications also with additional sheet metal mounts. See your mounting bracket instructions for more details on installation.

2. Cable Pinout & Aiming

2.1 - Cable Pinout

Note: Tremor Mining lights have a 2 pin connector with On/Off functionality as well as an integrated strobe feature (3 LED Drift Strobe Model Only).

2.2 - Aiming the Light Pod

Step One: Loosen the 4 hex head bolts on the sides of the angle indicators. Rotate the lamp till the pointer aligns with the degree of choice on the printed scale. Re-tighten the bolts to lock in the desired angle.

3. Technical Specifications
